15 Dec to CEU. Talk 4 G 16-20 Dec.

Safeguarding concerns re CEU students

ME  
Head ache, fuzzy head,  
attempt to vomit in toilet  
before meeting. Thf. not  
taking any immediate  
action until I have slept

F. felt difficult to move to do research here in W  
but also pressure to come in case the grant funding was withdrawn  
by paying rent in country & in UK.

Very worried about J and where he will put in energy to the work; and  
Reference letter I'm afraid that the relationship  
got compromised

Lack of motivation since July

Pressure of not talking makes it hard to make a plan

"I had to leave Budapest"

Maybe tell the university about Friday?

J putting pressure on F saying she should be  
quiet or could affect Barbara's contract by  
messing up ERC transfer.
